

Eyron's Hindi Support: Quick Installation Guide

Overview

Eyron's Hindi Support is a free software that enables you to easily read, write and edit text in Hindi on your Windows Mobile touch screen device.

After installing and activating the software, Eyron's Hindi soft keyboard will be added to the keyboards menu on your device. By selecting Eyron's keyboard from this menu, you will be able to enter Hindi text into various applications quickly and easily.

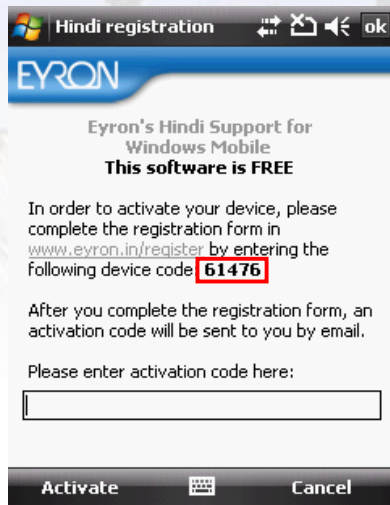

Eyron's Hindi Support is designed for Microsoft Windows Mobile devices that have a touch screen. The product does not support Windows Mobile devices without a touch screen.

The product supports both Windows Mobile 5 and Windows Mobile 6 Professional.

The Installation Process

Step 1: Download

- On your computer, go to the download page at www.eyron.in/download.
- Click the download link and save the CAB file on your computer.
- Copy the CAB file from your computer to your mobile device. You can do this in several ways, including the use of Microsoft ActiveSync, your SD card, or a Bluetooth connection.
- Run the CAB file on your device. The CAB installation will begin.
- After the CAB installation is complete, Eyron's Hindi Support registration screen will appear.

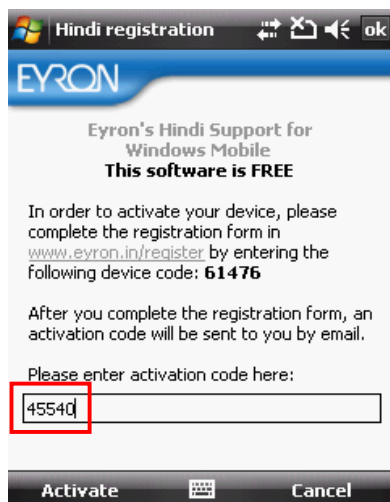

Step 2: Register

- On your computer, go to the registration page at <http://www.eyron.in/register>.
- In the **Email** box, enter your email address. Your activation code will be sent to this email address, therefore, please make sure you enter a valid one.
- In the **Device code** box, enter your device code. The device code is the 5-digit number that appears on Eyron's Hindi Support registration screen on your device (see above).
- Click the **Generate** button. The activation code will be generated and sent to your email address.

Step 3: Activate

- On your device, type the activation code you received in the box at the bottom of Eyron's Hindi Support registration screen.

- Click the **Activate** button at the bottom of the screen.
- Follow the instructions on your device to complete the installation. You may need to restart the device to complete the installation process.

Using Eyron's Hindi Support

- After you complete the installation process, Eyron's Hindi soft keyboard will be added to the keyboards menu on your device.

- By default, Eyron's keyboard is presented in English. Click the **IN\EN** toggle button at the bottom of the screen to switch between the English keyboard and the Hindi keyboard.
